Professional Summary

I'm a Lagos, Nigeria based fullstack web developer with
4 years of experience working as a consultant and contractor.
I also have basic skills in user interface design.

EXPERIENCE

Smarteens Community Developer Club, Ikorodu Lagos — Tech/ Coding Instructor & Coordinator

JULY 2021 - PRESENT

I take young adults enthusiastic about software engineering from having no knowledge in sotware development to building software projects. I also guide them into the tech ecosystem and help them get involved in tech communities and prepare them for the tech job market.

Springs Experiential Marketing, Abuja — Contract Engineer & Consultant

JULY 2022 - JANUARY 2022

I rebuilt, redesigned and optimized the official website of the organization using modern accessibility techniques, improved aesthetics and modern software engineering tools to drive traffic to the website and bring more business to the company.

REDI MEDIA, Lagos — Contact Engineeer

January 2021 - April 2021

I managed, designed and optimized the organization's official website that drove more traffic and brought more business to the company using accessibility techniques, SEO and improved aesthetics.

Successor Generation Community, Ikorodu Lagos — *In-house Tech-expert and programming Instructor*

JULY 2019 - AUGUST 2020

I instructed and managed students of the institute in the basics of software Development and Design.
